

University of Central Florida, Student Union Building

Monday, March 10, 2008

9:00 am — 3:00 pm

Solar Energy Workshop

Learn about photovoltaics and solar thermal technologies.

The Solar Energy Workshop for Middle and High School Science Teachers is held in conjunction with the 2008 Annual Joint Symposium of the Florida Chapter of the AVS and Florida Society for Microscopy.

All registered teachers are welcome to attend any or all of the symposium offerings at no charge!

Visit www.flavs.org for more symposium information.
